

21legal

With up to 30 years of experience in enforcing claims for consumers entitled to compensation against institutions such as major banks and insurance companies, 21legal is well prepared for legal disputes with car manufacturers. The team of experienced lawyers commits to its customers and strives to help them exercise their rights. 21legal approached us to provide them with an integral IT solution for handling their complex legal and internal processes. The priority was to automate time-consuming routine activities and to offer a solution to make their communication channels more customer-friendly. The specific goals of our assignment were:

CHALLENGE

Wilhelm Lachmair
21LEGAL, MANAGING DIRECTOR

„Thanks to the partners of cloudworx, we are getting better and better at identifying and controlling time wasters in the law firm’s daily routine. Particularly impressive are the competent support in the analysis, the on-time delivery as well as the compliance to the promised budget.“

SOLUTIONS

Technical optimisation of lead generation
Creation of landing pages and forms with direct transfer into the system

Integrated payment flow
Automated screening of bank accounts and assignment of payments to invoices

Seamless business processes
Automation of the complete process for maximum workflow efficiency

Interactive customer interfaces
Customer portal for monitoring the case status and transmittal of documents

Automated communication
Creation and dispatch of documents and emails throughout the legal process

Integration of third-party systems
Spanning (backup), Twillio (SMS), PixelLetter (mail delivery), cloudworx.components

Email inbox monitoring
Transfer of incoming emails and attachments into the system with automated mapping

RESULTS

Digitalisation of business processes
(FROM 35% TO 95%)
